Major requirements have been structured to provide a breadth of knowledge in various areas of Psychology. Majors must meet with one of the department faculty members early on to plan their coursework. **Students who intend to apply to graduate school should discuss the preferred sequencing of courses and research opportunities, GRE's, and the application process with a faculty member in the department.**

Participation in the Psychology Club provides valuable information and opportunity to become involved in a variety of extracurricular events. Psi Chi, the National Honors Society, has an active chapter on campus.

### REQUIRED COURSES (Foundation Courses offered in the Fall and Spring)
